

To Whom it May Concern:

The proposed buyout of New River Valley Radio Partners by Cumulus Broadcasting should be stopped by the FCC. Why? The local news and local radio personalities will be affected. Jobs in the New River Valley will, in the long run, be affected by the decision by Cumulus to purchase New River Valley Radio Partners.

I currently listen to at least two of the radio stations owned by New River Valley Radio Partners. If the \$7 million buyout occurs, then I will seriously consider tuning into other radio stations.

I am opposed to the proposed buyout by Cumulus Broadcasting.
